

The Journey program is for High School students and takes a closer look at the scriptures. In this program the clubbers have several books and topics they can choose to study over the year. Journey meets before AWANA starts so that the high school students (those who are Leaders in Training) can get to the AWANA group they are helping. This group often will take a topic and do some in-depth research which is shared the next week. Those interested in obtaining their AWANA Citation Award are included in, and must complete this study.
